Provision and
Use of
Work
Equipment
Regulations 1998

Are you PUWER compliant ?

WHAT IS PUWER?

The PUWER regulations came into effect on 5 February 1998, and exists to protect your workers from unsafe machinery and other work equipment.

The regulations require risks to people's health and safety from any equipment that they use in the course of their work, to be prevented or controlled.

In other words, that work equipment is maintained safe for use, in a safe condition and suitable for the intended use.

Under PUWER, all work equipment requires a thorough examination by a competent trained person, simple work equipment items can be visually inspected.

FURTHER EXAMPLES OF USES OF WORK EQUIPMENT WHICH ARE COVERED BY THE PUWER REGULATIONS INCLUDE:

- Installations
- Guards
- Starting or Stopping
- Maintenance
- Servicing
- Rectification / Repairs
- Modifications
- Cleaning
- Transportation
